

AMAH-TCHOUTCHOU

Elikplim Josué

Machine Learning Junior Engineer

I am an engineering student specializing in engineering sciences, passionate about Artificial Intelligence and Big Data. I have solid experience in data processing and developing machine learning models, demonstrated by the successful completion of numerous real-world projects. My proficiency in Python, R, Java, and SQL has allowed me to contribute significantly to prediction and classification initiatives. I am determined to apply my skills in an innovative company to tackle complex problems and optimize decision-making.

expérience professionnelle

Innovator

I played a key role in the development of our agricultural production company by designing a Telegram bot based on deep learning. My goal was to significantly improve the detection of plant diseases through in-depth analysis of their leaves. This innovative tool not only enhances the efficiency of disease identification but also supports farmers in making informed decisions, ultimately contributing to healthier crops and better yields.

formation

Bachelor's Degree In Engineering Sciences

I began my university education at the École Polytechnique de Lomé, where I chose to pursue a Bachelor's degree in Artificial Intelligence and Big Data with the ambitious goal of becoming an expert engineer in AI.

École Polytechnique
de Lomé - Université
de Lomé
Lomé
10-2023 - 07-2026

BACCALAURÉAT D'ENSEIGNEMENT DU SECONDAIRE

During my studies, I developed strong skills and rigorous work methods. I am proud to have earned my Baccalauréat in the C series (Mathematics and Physical Sciences) with honors, demonstrating my proficiency in these areas.

IEGT STE
CATHERINE
Lomé
08-2020 - 07-2023

BREVET D'ÉTUDES DU PREMIER CYCLE DU SECONDAIRE

I successfully completed my BEPC with distinction, achieving a HIGHLY COMMENDED score.

CSC LA RÉFÉRENCE
Lomé
10-2016 - 07-2020

savoir-être

Creativity, Teamwork, Autonomy,
Adaptability, Rigor, Analytical Mindset

savoir-faire

Python, C, Java, Machine Learning,
Traitement De Données , Scikit-Learn,
Pandas, TensorFlow, HTML-CSS, Word,
Flask

langues

Français(Courant)
Anglais(Moyen)

certifications

Exploring And Analyzing Data With
Python
Fundamental Concepts Of AI
Introduction To Machine Learning

centres d'intérêt

Culture, Sport, Jeux Vidéos, Manga
